The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF COUNTY FINANCES

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation*,
STATE HOUSE, BOSTON.

SIR: — The form of this report is similar to those of recent years. The tables following are prepared from figures submitted to this office in sworn annual returns of various county officers as required by law. The county treasurer of Suffolk county makes no return, being exempt by the provisions of Section 18, Chapter 35, General Laws. In the summary table, duplications have been eliminated where they can be identified. Following the summary, the usual tables appear as follows:

Table No. 1 — Returns of County Treasurers, except Suffolk.

Table No. 2 — Returns of Clerks of Supreme and Superior Courts.

Table No. 3 — Returns of Clerks of District and Municipal Courts.

Table No. 4 — Returns of Trial Justices.

Table No. 5 — Returns of Registers of Probate.

Table No. 6 — Returns of Registers of Deeds.

Table No. 7 — Returns of Recorder and Assistant Recorders of the Land Courts.

Table No. 8 — Returns of Sheriffs.

Table No. 9 — Returns of Keepers of Jails and Masters of Houses of Correction.

Table No. 10 — Returns of Probation Officers in Superior, District and Municipal Courts.

Table No. 11 — Returns of Tuberculosis Hospitals.

Table No. 12 — Returns of County Aid to Agriculture.

Summary Table — Consolidation of Tables Nos. 1 to 12, inclusive.

The provisions of Sections 44 and 45 of Chapter 35, General Laws, require the examination of the books and accounts of all county officers receiving money payable to the county at least once a year. We regret to have to report that at the end of the year several offices had not been visited. This is due to an increase in the volume of work which reflects in additional time consumed by the examiners concerned in the work. Changes in law have resulted in a tremendous number of parking violations in the large cities which have to be checked annually. Changes in personnel in various county offices require additional special examinations. In order to audit, analyze and tabulate the material for this report it is necessary that the examiners spend approximately two months in the office on this work, which means that the field work is retarded to that extent. Assignments were made to cover the unfinished work and as this report goes to press the entire schedule has been completed.

Discrepancies amounting to \$1,434.05 occurred in one office due to the fact that the official was carrying money which he had received in his official capacity in his own personal bank account instead of in an official bank account as required by law. This condition was corrected at the end of the audit.

We find that many officers are allowing funds in their possession to be used to cash personal checks and for advances not authorized by law. Such use of public or obligated funds is a bad practice and each officer as his books are examined is required to make good all such money advanced. We have requested that this procedure be discontinued.

As previously reported, some of the larger counties have borrowed in anticipation of taxes sums greatly in excess of their immediate needs. Section 37 of Chapter 35, General Laws, limits such borrowings only to the extent that they cannot exceed the tax of the current year if said tax has been granted, otherwise not to exceed the tax of the previous year. It is obvious that this practice creates surplus funds and is an unnecessary risk of public money since the law does not restrict county officers as to the amount which may be deposited in banks and trust companies.

In 1938 the county commissioners in three counties apportioned the county tax incorrectly, either by failure to follow the procedure as set forth in Section 31, Chapter 35, General Laws, or by failure to apply properly special acts as passed by the Legislature in prior years. These errors necessitated a reapportionment of the tax for each of these three counties and the collection of additional taxes from those cities and towns who had underpaid and a refund to those cities and towns who had overpaid of \$45,814.55.

Trouble is still being experienced by the examiners in finding that bills in excess of one thousand dollars are being incurred and paid without complying with Section 17, Chapter 34, General Laws, which provides that bids must be solicited by advertising. No county treasurer is authorized to pay such bills unless and until all provisions of the statute referred to above have been fully complied with.

In Bristol county the district attorney and his assistants have from time to time since October 27, 1936 obtained from the county treasurer on requisitions properly approved as provided by Section 25, Chapter 12, General Laws, \$1,400 for travel outside the Commonwealth in the search for, and to bring back for trial, persons under indictment. After repeated requests in accordance with Section 21, Chapter 35, General Laws, the county treasurer has been unable to obtain an accounting and refund of any remaining balance from these officers.

The total county funded debt as of January 1, 1939 was \$3,105,750. This is being reduced annually by taxation and will be entirely retired in 1951. The contingent debt for maintenance for the tuberculosis hospitals amounts to \$1,350,000 which will be paid off by assessments against the hospital districts during the coming year. There is also a contingent debt for construction of certain hospitals amounting to \$2,031,300 which is being retired by annual assessments against such hospital districts.

There has been a decrease in general revenue in 1938 as compared with 1937. The tabulation below shows this decrease and, of course, is exclusive of taxes and assessments. It also excludes Suffolk county where the financial setup is very different from that in other counties.

Items showing decrease — total decrease.....	\$124,954.62
Items showing increase — total increase.....	75,841.73
Net Decrease.....	\$49,112.89

Such decrease in revenues is, of course, reflected in the county tax and has a direct effect on the estimates for county expenditures. In this connection it is noted that part of the decrease is from sources connected with the courts, and while income is decreasing the cost of the courts is steadily mounting. This year nearly \$10,000 less has been received from fines in the superior court while receipts from district courts and trial justices have dropped off almost \$40,000. Court expenses, while in the county budgets, are outside the control of the county commissioners and constitute a very substantial part of the total county expenditures. It is also to be noted that the inactive real estate market results in a decrease in revenue from registries of deeds of approximately \$29,000.

All counties except Dukes County, Nantucket and Franklin now have contributory retirement systems and in Dukes County and Franklin such will begin to function in 1940. While the technical auditing and the actuarial control of these systems are vested in the Division of Insurance, yet they entail considerable additional work in the general audit of the accounts of county treasurers.

Under a legislative resolve the County Personnel Board has been part of a special commission to study county training schools. The report of the special commission to the 1939 Legislature is found in current House Document No. 2123. Aside from this the County Personnel Board has performed its usual functions. Mr. Clarence A. Hodgkins, long a county commissioner of Hampshire county, retired from office at the end of the year. He had been a member of the County Personnel Board from its beginning and his experience and helpful assistance will be missed.

Respectfully submitted,
THEODORE N. WADDELL,
Director of Accounts.

CONSOLIDATION OF TABLES 1 TO 12, INCLUSIVE

1938

Receipts

County tax	\$7,578,026.10
Temporary loans:	
Anticipation of tax	5,122,000.00
Tuberculosis hospital maintenance	1,305,000.00
